THIS IS IT! NFMC CONFERENCE

June 19-23, 2018, WFMC Hosts NFMC Meeting

Committees are in the final stages of preparation in order to have details in order for the smooth operation of the Conference, day by day. If you have made plans to attend please contact Cathy Paquette in order to help with registration desk duties. (Not too tough of a job but lots of fun to greet guests to the conference!)

I welcome club members from across our state and thank you for your interest in supporting the North Central Region and the NFMC. As I've said so many times, but I'll repeat – your involvement in the state organization allows us to help students of all ages along their musical life's path. The programs and awards of the WFMC emphasize our desire to celebrate music in our lives, extend membership to family and friends, share our talents, and strive to keep music a vital part of our communities, universities, and schools.

Let's celebrate all that makes us music club members, all the hard work we do, all the programs we support, all the awards we raise
